I read the requirements for our assignment 2. The research topic we choose could be one of our assignment 1's topic.

AS

Abu Shafin Solaiman 4/20 下午3:10

Guys, that reminds me, did y'all get your assignment 1 marks yet??

AS

Abhinaj Singh 4/20 下午3:10

Not yet boss

TH

Tianlang Huang 4/20 下午3:10

no

4/20 下午3:11

Not yet

AS

Abu Shafin Solaiman 4/20 下午3:12

So what topic do you guys want to choose? Any preferences?

4/20 下午3:12

**What does it do? (800 words)** What is the state of the art of this new technology? What can be done now? What is likely to be able to do be done soon (say in the next 3 years)? What technological or other developments make this possible?

**What is the likely impact? (300 words)** What is the potential impact of this development? What is likely to change? Which people will be most affected and how? Will this create, replace or make redundant any current jobs or technologies?

**How will this affect you? (300 words)** In your daily life, how will this affect you? What will be different for you? How might this affect members of your family or your friends?

I asked the teacher about the word count requirement for this assignment. Just the IT Technology part we need to have 4800 words. I think we need to speed things up

AS
Abu Shafin Solaiman
4/21下午3:43

If you guys could choose the topic, we can continue with the assignment

Or rather start

4/21下午8:06

Topic	Weight	Grade
Topic 1: Introduction of IT Technology	20%	20 pts
Topic 2: Introduction of IT Applications	20%	20 pts
Topic 3: Introduction of IT Security	20%	20 pts
Topic 4: Introduction of IT Ethics	20%	20 pts
Topic 5: Introduction of IT Law	20%	20 pts

I tabulated the grading requirements for this assignment

We need to participate in the top two parts and the bottom three parts. We can divide the middle five parts.

If Solaiman you you are very confident about your assignment 1 project. Could you please finish Project Idea?

IT technology we should have four members to do this part. Each of the other four people needs to participate.

I was gonna tell you guys that my project is pretty small and we won't have much to write about it. Abhiraj's idea seemed more doable as it is a huge market and we will have much more to talk about than mine. Then again, it's upto you all to decide what you guys want as the project.

We have to keep in mind that it's a lengthy assignment and we should choose the project accordingly

4/21下午8:15

Yes, we'd better choose what we are good at

AS
Abu Shafin Solaiman
4/21下午8:17

Can we get on a call tomorrow, choose our idea, and divide each of our parts?

4/21下午8:18

But this assignment's due date is 2/5. We need to divvy up our work and get going as soon as possible

AS
Abu Shafin Solaiman
4/21下午8:18

That's why I'm saying, get on a call tomorrow and start with it ASAP

4/21下午8:18

It depends on the wishes of all members.

AS
Abu Shafin Solaiman
4/21下午8:19

Exactly.

We also have a part which is industry data  
1.xlsx  
I think Solaiman and Liu, either one of you should do this section or work together. So far the portion you have chosen is the least.

Abu Shafin Solaiman 昨天 下午12:52  
Least?  
You guys aren't active in the group chat  
I texted you and you don't reply  
You don't tell me what you're doing  
After two weeks you reply to my text

Introduction of IT group 8 聊天 文件 +

昨天 下午12:53  
Singh has 15%, I have 16.25%, you two only have 6.25%

Abu Shafin Solaiman 昨天 下午12:54  
Yes and I don't have a problem doing industry data  
But next time just goddamn respond when someone writes you anything  
It's a group assignment and not individual  
You can't just take your share and start doing yours without properly discussing

昨天 下午12:56  
I'm sorry about that. I didn't see the message you sent me before. But you can ask others, too

Abu Shafin Solaiman 昨天 下午12:56  
I already spoke to Abhiraj yesterday and we both discussed  
Because none of you were responding  
I had a severe medical condition and I was planning to get an extension but I know you guys are done with your bits so I'm trying to keep up with y'all so that you guys don't get lacked behind because of me  
So please Atleast be responsive

昨天 下午12:59  
I'm sorry, but your part can be handed in later if you've already applied for an extension

Abu Shafin Solaiman 昨天 下午12:59  
I haven't applied and I don't want to. I should be done by tonight or tomorrow morning latest. Don't worry about that  
Just reply to the texts because there is no other way of communicating with y'all

We haven't recorded the meeting yet, but that's not what we need to do most right now. Because I have sent our team's chat record to the teacher and explained our current situation to the teacher. What we need to do now is finish our Google Docs and ContributionsForm. If we don't finish these two, in this assignment we may get no mark.

these two, in this assignment we may get no mark.

I know. Tianlang Huang tell me he is trying to create this website. But at present, the webpage he created has a problem. Anyone else who opens this page will show 404.

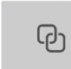

Tianlang Huang 下午3:31  
Does anyone know how to create a Github website?

下午4:41  
For group reflection part everyone need to write a 200 words. Perception of the group, and the group as a whole should contribute around 400 words. So this part needs to contain 1400 words.
